

Serial No. 10/814,566

RECEIVED  
CENTRAL FAX CENTER**IN THE ABSTRACT****OCT 06 2005**

Page 6, lines 2-6 have been amended as follows:

A protective sleeve is provided for use with an extension bar. The extension bar includes a detent and a button that can be pressed in order to control the detent. The protective sleeve defines a hole and an aperture ~~communicated~~ communicating with the hole. The hole receives the extension bar when the aperture receives the button.
